

WOMEN'S SEPARATES (TOPS & BOTTOMS) SIZING

RED WING MEASURING GUIDE

Purpose-built for the work you do, our industrial workwear is designed to fit so well, so comfortably, that it may not even seem like personal protective equipment. Key measurements necessary to ensure the best possible fit include: **Height, Chest, Waist, Hip** and **Inseam**. These sizing tables and measuring instructions are intended to guide you in selecting the right size(s) for each garment style. If you don't see the size you're looking for, please contact us for information about our make-to-measure option.

TIP: For best fit, measurements should be taken directly from the body. Room for movement is already calculated into garment dimensions.
