

Deb InstantFOAM® Complete™

Alcohol-Based Foam Hand Sanitiser Topical Solution

PRODUCT DESCRIPTION

Refreshing, perfume and dye-free alcohol-based InstantFOAM hand sanitiser with moisturiser and skin conditioner. Glove compatible.

WHERE TO USE

Ideal for use in all healthcare and food handling environments where high levels of hand hygiene are vital. Also, suitable for use in cafeterias, office areas, rest areas and any public facility to help prevent the spread of germs.

WHEN TO USE

Healthcare environments – use hand sanitiser as per the World Health Organisations '5 Moments of Hand Hygiene' recommendations.

Food handling environments – use hand sanitiser as recommended by HACCP risk assessment.

General hygienic use – use hand sanitiser after coughing, sneezing, contact with body fluids or touching potentially contaminated surfaces.

HOW TO USE

On clean dry hands, apply sufficient amount to cover & wet all parts of the hand for 30 seconds (hygienic hand disinfection) or 180 seconds (surgical hand disinfection).

MAL20016153X

FORMAT: **FOAM**

FEATURES	BENEFITS
Complete broad spectrum activity	Highly effective formula kills 99.999% of many common germs and is fully tested and proven to be bactericidal, virucidal, yeasticidal and mycobactericidal.
Instant foam action - dispensed as a foam	Rapidly and easily rubs across hands, providing the user with complete control of the product, preventing the dripping and splashing associated with using liquid alcohol sanitisers.
Does not contain gelling agents	Unlike alcohol gel sanitisers, the product does not contain gelling agents that leave the hands feeling sticky, particularly after multiple use.
Pleasant-to-use	The rich foam is extremely pleasant for frequent use in-between hand washing, encouraging maximum compliance.
Perfume-Free and Dye-Free	Designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
Non-drying formula	Independently tested and proven to prevent skin dryness even after frequent use.
Skin Hypoallergenic	Dermatologist tested to verify and confirm this product has very low allergenic potential and is designed for sensitive skin.
ECARF Certified¹	This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for being well tolerated by sensitive skin. ecarf-siegel.org/en/about-seal .
Suitable for food facilities	Product has been independently evaluated and trace amounts of the product are not expected to cause adverse toxicological effects. Food handlers should use product only in accordance with label instructions and product should not come directly into contact with food or items that contain food.
No mess	Does not clog pumps or splash and drip on surrounding floor and wall surfaces as associated with liquid and gel sanitisers.
No water required	Quickly dries on hands without the need for rinsing with water. Ideal for use outside the washroom at the point of need.
Convenient	Available in a range of sizes for use in different healthcare, workplace and public environments.
Glove compatible	Suitable for use with latex, vinyl and nitrile gloves.

Alcohol-Based Foam Hand Sanitiser

SAFETY DATA SHEETS

For Safety, Environmental, Handling, First Aid and Disposal information please refer to our Safety Data Sheet which can be downloaded from www.scjp.com/msds.

HANDLING INSTRUCTIONS

Use the hand sanitiser safely. Always read the product instructions before use. Please refer to the label or SDS for safety information.

SHELF LIFE

This product has a shelf life of 24 months.

SUITABLE FOR USE IN FOOD HANDLING

The use of Deb InstantFOAM® Complete™ as per usage instructions, does not influence the quality and safety of foodstuffs.

The product has been assessed using the HACCP hazard analysis methodology. The following critical control points were identified and are controlled as follows:

1. Impact on smell and taste of foodstuffs – The formulation has been independently tested according to 'Sensory Analysis – Methodology – Triangle Test BS EN ISO 4120:2007' and proven to not have the potential to taint food.
2. Possible toxic effects of ingredients – An independent oral toxicological evaluation was performed and concluded that any foodstuffs which may contain trace amounts of the product, are unlikely to cause any adverse toxicological effects.

CERTIFICATIONS

ECARF Seal of Quality

This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability.

Cosmetics can receive the seal of quality for meeting the following criteria:

1. Quantitative risk assessment of the product ingredients with respect to their potential for skin sensitization, taking into account their specified conditions of use and amount.
2. Medically supervised clinical trials by volunteers with atopic dermatitis.
3. Approved system of quality control management.

QUALITY ASSURANCE

SC Johnson Professional skin care products are manufactured in facilities which follow Current Good Manufacturing Practice (cGMP).

All raw materials used for production undergo a thorough quality control process before being used for manufacturing in SC Johnson Professional's high quality products.

All finished goods are subject to intensive quality testing before being shipped out to our customers.

COMPATIBILITY ASSURANCE

Glove Compatibility

In independent testing, the use of Deb InstantFOAM® Complete™ in combination with reputable latex, vinyl and nitrile gloves does not have any deleterious effect on the glove tensile properties using BS EN 455-2:2009 test methodology.

PRODUCT SAFETY ASSURANCE

Skin Compatibility Test

Clinical dermatological tests have been conducted to assess the skin compatibility of the product using voluntary test persons in enclosed and repeat application models. These tests, as well as in practical use, have proven that the product has very good skin compatibility. Skin compatibility expert reports are available upon request.

High Frequency Usage Study

In independent testing, Deb InstantFOAM® Complete™ was proven to have no adverse effect on the skin condition of the healthy hands of test panellists, even after 48 applications per day for 5 days.

Deb InstantFOAM® Complete™ was found to be significantly more moisturising compared to the control product – a market leading gel format hand sanitiser. Skin condition was assessed using Trans Epidermal Water Loss (TEWL) measurements, corneometry, visible redness inspection and skin conductance.

Toxicological Approval

The product has been independently assessed for human toxicity and product stability. It is declared safe for intended use, meeting all relevant regulatory requirements.

Skin Hypoallergenic

The perfume-free and dye-free formulation did not demonstrate a potential for eliciting dermal sensitization after conducting an independent 6 week Human Repeat Insult Patch Test (HRIPT).

Allergy sufferers should always refer to the ingredient list before using the product.

PRODUCT TESTING

TEST TYPE	TEST STANDARD	TEST CONDITION	COMMENT
Bactericidal	EN1500	In vivo	Product passes at 30 seconds (3mls).
	EN12791	In vivo	Suitable for surgical hand disinfection – apply 3ml and keep hands wet for 3 minutes.
	EN1276	In vitro	Suitable for use in food, industrial, domestic and institutional areas. Possesses bactericidal activity in 30 seconds under clean conditions using 4 referenced strains.
	EN13727	In vitro	Suitable for use in the medical area. Possesses bactericidal activity in 30 seconds under clean conditions using 4 referenced strains.
	Time Kill Procedure ASTM E2783-11 ¹	In vitro	Timed exposure kill evaluation of 54 bacteria species over 15 seconds.
Yeasticidal	EN1650	In vitro	Suitable for use in food, industrial, domestic and institutional areas. Possesses yeasticidal activity against Candida albicans at a contact time of 30 seconds.
	EN13624	In vitro	Suitable for use in the medical area. Possesses yeasticidal activity against Candida albicans at a contact time of 30 seconds.
	Time Kill Procedure ASTM E2783-11 ¹	In vitro	Timed exposure kill evaluation of Candida albicans and Candida tropicalis over 15 seconds.
Fungicidal	Time Kill Procedure ASTM E2783-11 ¹	In vitro	Timed exposure kill evaluation of Aspergillus brasiliensis and Aspergillus megaterium (vegetative cells) over 15 seconds.
Mycobactericidal	EN14348	In vitro	Suitable for use in the medical area. Possesses Mycobactericidal activity against Mycobacterium terrae and Mycobacterium avium in 30 seconds.
Virucidal	EN14476	In vitro	Deactivates Murine Norovirus (30 seconds), Adenovirus (30 seconds), Poliovirus (40 seconds) and SARS CoV-2 (30 seconds). Virucidal according to EN14476 against all enveloped and non-enveloped viruses, e.g.: H1N1, H5N1, H3N2, HAV, HSV-1, HIV-1, HRVs, Rota, Filoviridae and Coronaviridae viruses.
	ASTM E2011-13 ¹	In vivo	3ml applied to the hands for 30 secs produced 4.25 log ₁₀ mean reduction when challenged with Murine Norovirus (non-enveloped) in 30 seconds; and 3.30 log ₁₀ mean reduction when challenged with Rhinovirus (enveloped) in 30 seconds.
