AlphaTec®
Solvex®

37-900

A premium nitrile glove providing superior standards of safety for high-risk chemical handling

Previously known as: Solvex® 37-900

A premium nitrile glove 100% individually testing providing superior standards of safety for high-risk chemical handling

- A newly developed nitrile film offers greater strength and superior chemical resistance
- Sets new standards for mechanical performance, with unrivalled abrasion resistance
- Designed to deliver optimal results in wet or dry work environments where chemical resistance is crucial
- Provides superb comfort for the wearer
- Guaranteed product quality means gloves can be used with complete confidence in dangerous situations

Industries

- Automotive
- Machinery and Equipment

Applications

- Delivery of parts to production line
- Painting or cleaning tools or robots
- Changing tools and dies

AlphaTec® Solvex®

37-900

A premium nitrile glove providing superior standards of safety for high-risk chemical handling

Previously known as: Solvex® 37-900

Key Features

- 100% sampling testing,every glove is individually subjected to a leak proof air-pressure test and checked for defects before dispatch
- Produced in an ISO 9001 certified facility
- Fully reusable with an unequaled abrasion resistance
- Out-performs all existing Nitriles in permeation tests
- Reversed lozenge finish further enhancing levels of grip
- Vend pack variant available ,not applicable for US and Canada

Vulcanization Chemical Accelerators

- Mercaptobenzothiazole
- Zinc Diethyldithiocarbamate

Only a very small number of users may be sensitive to this ingredient(s) and hence may develop irritant and/or allergic contact reactions.
