Sector Use:

- Agriculture
- Construction
- Engineering
- Maintenance
- Trades
- Utilities
- Warehouse & Logistics

Features & Benefits:

Certified Ankle Protection has been attempted by other brands on leather footwear in recent times, but often with results that cuts corners and short changes the end consumer. BSH012 avoids disappointment with the introduction of bANG guardz, ensuring protection for both outer and inner Ankle bones. The bANG guardz safety feature provides a further benefit with snug fitting and comfort support around the ankle area, a key area of focus for The Health and Safety Executive in respect of site work. This style begs to be put to the test and can be worn in all weather environments with a waterproof specification included.
