

DuPont™ Tychem® 6000 Tape

The Next-Level Chemical
Barrier Connection

SUPERIOR CHEMICAL BARRIER

- Provides a permeation barrier of at least 30 minutes against hazards, including toxic industrial chemicals and highly concentrated organic solvents.*.
- Provides seamless protection—no weak links between tape and suit, helping maintain the garment's intended chemical barrier performance at every junction.

*Please check DuPont™ SafeSPEC™ for permeation data.

HAND-TEARABLE; LOW ELONGATION; NO CURLING

- Fast, easy application with a secure fit.
- Lightweight for ease of use

SUITABLE FOR USE WITH CATEGORY III CHEMICAL PROTECTIVE GARMENTS, INCLUDING TYCHEM®, TYVEK®, AND PROSHIELD®

- Reliable adhesion in challenging environments—tape stays in place, even on dusty surfaces, so your PPE remains uncompromised.
- Typically functions as a connection between gloves and Category III Tychem®, Tyvek® or ProShield® chemical protective garments. It can further be used to tape the hood to the mask, the ankles to the boots and the zipper flap.

NOTES: • This tape does not protect against ionizing radiation.
• This tape is not flame resistant and should not be used in areas with heat, open flame, sparks or in potentially flammable environments.

Category I

Reference:	TF00990YL00
Colour:	Yellow
Dimensions:	Width 50 mm x Length 50 m per roll
Packaging:	12 rolls per box

This information is based upon technical data that DuPont believes to be reliable. It is subject to revision as additional knowledge and experience become available. It is the user's responsibility to determine the level of toxicity and the proper personal protective equipment needed. The information set forth herein reflects laboratory performance of fabrics, not complete garments, under controlled conditions. This information is intended for use by persons having the technical expertise to undertake evaluation under their own specific end-use conditions, at their own discretion and risk. Anyone intending to use this information should first check that the garment selected is suitable for the intended use. The end-user should discontinue use of garment if fabric becomes torn, worn or punctured, to avoid potential chemical exposure. Since conditions of use are beyond our control, DUPONT DE NEMOURS, INC.
