THE LYNX RANGE

MAXIMUM PROTECTION FOR THE WEARER, MINIMAL IMPACT ON THE PLANET

Sustainable manufacturing is essential for the planet's longevity, so our wearers and the earth need carbon neutral solutions. And we saw Lynx as an opportunity to develop such a solution...

A men's and True Women's Fit™ safety boot range, Lynx was designed to reduce carbon in every phase: design, construction, shipping and packaging, and trigger environmental regeneration rather than depletion.

- Carbon Neutral
- Cradle-to-grave LCA

MAXIMISING SAFETY, REDUCING CARBON

- Average co2 amount generated by a waterproof boot: 27.1 Kgs
- A Lynx boot generates: 17.46 Kgs
- Lynx creates 36% less carbon

OPTIMISING SUSTAINABILITY

- Uppers produced by LWG (Leather Working Group)- Gold Certified tannery (best environmental industry practices assured)
- Production moved to Europe to reduce shipping emissions

COMPREHENSIVE CARBON NEUTRAL RANGE

- 3 Men's Fit
- 3 True Women's Fit™

INTERNATIONAL ENVIRONMENTAL AWARD-WINNER

- Engineering and Manufacturing: Carbon Reduction

SUSTAINABILITY STITCHED IN WITH SYMPATEX®

Lynx's waterproof Sympatex membrane is a true sustainability innovation

- 100% recyclable
- PTFE and PFAS-free (no synthetic chemicals or polymers)
- Standard 100 certified (harmful substance-free)
- Bluesign® approved
- Creates 30 times less co2 than a PTFE polymer

BUILT TO LAST

High-quality components, trialled and tested

Durable uppers

Rugged soles

A 'tough by design' means Lynx stays on feet for longer.

The fewer boots you buy, the less material you use.
